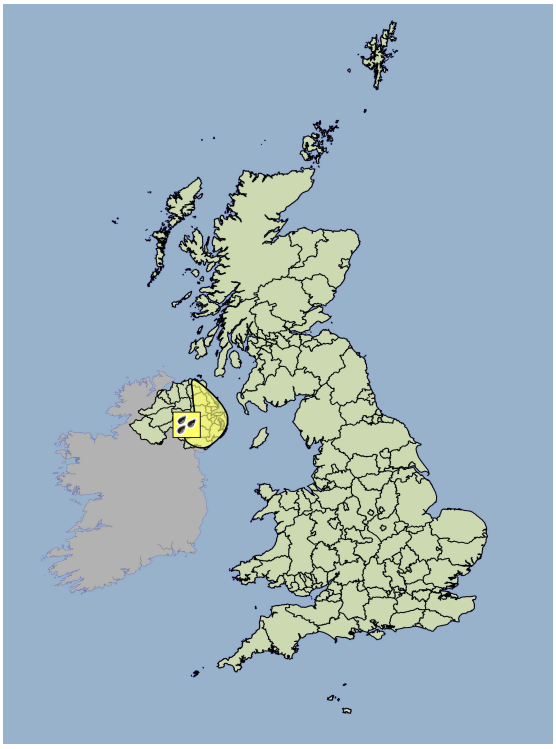
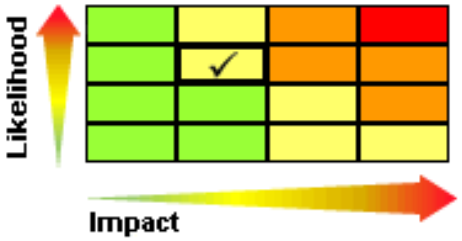
National Severe Weather Warning Service





Chief Forecasters Assessment
A band of rain associated with a cold front will become slow-moving across eastern counties of Northern Ireland for a time this evening. Hourly accumulations of 10 to 15 mm in an hour are possible, with 20 to 25 mm in 3 to 4 hours in a few spots before the rain clears away east around midnight.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **18:00 on Mon, 28th Dec 2015** until **23:45 on Mon, 28th Dec 2015**

Heavy rain in eastern parts of Northern Ireland this evening will bring the potential for some minor surface water flooding.

The public should be aware of the risk of disruption, particularly to transport.
